Services for: Children
Age range: 3 to 18

Services offered:

We teach gymnastics. Most of our autistic students attend a special class together where their parents are involved. They build muscle memory, increase coordination and flexibility, etc. It is a great outlet for their high energy. It also offers great physical and mental challenges to increase self-confidence/esteem. Some students are integrated into the regular program if they are ready to go alone. On occasion, schools come for free field trips as well.
